Vienna, July 26.

WE have Advice from *Hungary*, That the Turks are abroad in strong Parties, and that towards *Labeutz* they have Plundered and burnt 36 Villages and Bourgs, and carried away above 400 Christians, having killed all those that were either too young or too old for them to take with them; That the Palatine of *Hungary* had thereupon Summoned together the *Militia* of the Country, to make head against these Invasions, and that he hoped in a short time to have a Body of 10 or 12000 Men: That the Turks are about 70000 strong near *Newheusel*, and that they have likewise a considerable Body near *Offen*. These advices make the Imperial Troops March with the greater Diligence towards *Hungary*; and Count *Caprara*, and the other General Officers, are preparing to follow. There is a discourse of new Levies to be made, the Forces which the Emperor has now on foot, according to a List that is abroad, consist in 20 Regiments of Foot, 2040 Men in each, 32 Regiments of Horse, 1000 in each, and 10 Regiments of Dragoons, 500 in each, which are 44880 Foot, 12000 Horse, and 5000 Dragoons; and together make 66880 Men.

Strasburg, July 28. It is hardly to be exprest with what extraordinary diligence the French carry on the new Fortifications which they are making here, and at other places in these parts; and we are assured that Monsieur *de Louvoy* will be very suddenly here to view them. It is said that they will rebuild the Walls of *Calmar*, which they demolished upon the breaking out of the last War: But as for *Landaw* and *Germersheim* it is now reported, that they are to remain as they are, without any Fortifications.

Hamburg, July 31. Our Letters from *Stockholme* of the 15th Instant inform us, That Count *Wentzel* of *Altheym*, Envoy Extraordinary from the Emperor, was arrived there: And from *Berlin* of the 22 they write of the noble reception which the Markgrave of *Anspach*, and the other Illustrous Personages that were with him, had had there. The King of *Denmark* being returned from *Oldenburg* to *Gluckstadt*, is gone to *Goldingen*, where will be a general Rendevous of his Troops in those parts, and yesterday His Majesty passed through *Rensburg*, in his way thither.

Hamburg, Aug. 4. The King of *Denmark* having received an account of the Queens being brought-to-bed of a dead Princess, is thereupon returned to *Copenhagen*, but with an intention to be back in *Holstein* about the middle of this Month. From *Stockholm* of the 22 Instant they write, That the young Prince had been Christned with great Solemnity, by the name of *Charles*, Prince *George* of *Denmark*, the Duke of *Holstein*, and the Bishop of *Eutin*, being his Godfathers; and the Queen of *Denmark*, the Landgravinne of *Hesse*, and the Princess *Dorothea* of *Holstein*, the Godmothers.

Cologne, Aug. 4. The Sieur *Lente*, Envoy Extraordinary from the King of *Denmark*, has had several Conferences with the Ministers of our Elector, concerning the present State of affairs, and as we are told, has represented to them, That the King his Master desires nothing more than that the Peace of *Germany* may be preserved; That his Majesty is very much troubled to see how unsuccessful the Conferences at *Francfort* have hitherto been, and wishes such Resolutions may be taken by the Princes of the Empire, as may be the Foundation of a firm and lasting Peace and Tranquility, to which his Majesty thinks nothing can at this time conduce more than the accepting of the Proposition made by the French Ambassadors at *Francfort*, which he therefore desires his Electoral Highness not only to declare his own approbation of, but to employ his Offices, with other Princes, to dispose them to do the like. The Prince of *Parma*, late Governor of the Spanish Netherlands, parted from hence two days since, for *Francfort*, intending to take his way through *Switzerland* for *Italy*. The Bishop of *Strasburg* is expected here from *Paris* about the middle of the next month, and it's said that he will pass the Winter here.

Brussels, July 31. We are here in great repose, all persons being entirely satisfied with his Excellency's prudent Conduct and Management of Affairs, of which we doubt not in a short time to see a very great effect (especially if his Excellency receive the promised Supplies from *Spain*) by these Countreys being put into a posture of defence and security. There are Letters from Count *Caprara*, the Imperial Minister at *Constantinople*, which give an account of the kind reception he had had from the Grand Vizier, who assured him of the Grand Signior's desire to renew the Peace for 20 years, provided it might be upon honourable Terms, which (if what we hear be true) the Grand Vizier did propose to be, *That a very considerable yearly Sum be paid to the* Port; *That the Emperor pardon the revolted* Hungarians, *and restore their Estates*; *That* Leopolstadt *be dismantled*; *That the Turkish Limits be extended to* Transchin, *upon the River* Wang; *and, That the Country situate upon the River* Theis *be yielded to the Turks*. The States of this Province are not yet agreed in the matter of the Subsidy which his Excellency demands of them.

Brussels, Aug. 7. His Excellency has ordered another Months Pay for the Army, and at the same time has commanded a general Review to be made in the several Provinces, that his Excellency may be exactly informed of the Forces that are on Foot; and his Excellency has published a Placaet, commanding all Officers to repair within 48 hours to their respective Commands. The Spanish Courier has brought Don *Antonio d'Agurto* his Commission to be *Maistre de Camp* General, who has thereupon received
